February 26, 2010

Dear Supporters and Prayer Partners,

I sure am glad that God is the God of Winter as well as the Spring. I think He is trying to get us to look to Him rather than the weather service and news programs. His precious Word is fresh as the dew on a daisy in June and we need to enjoy it all the time, not just when in trouble.

Since our last letter, so much has taken place. We have been to New York City to help the Crabtree's move and get settled. They are doing fine at this time and still getting acclimated to the surroundings. We have been home from Honduras for about a month and there we saw some great things happening. Bro. Yery Martinez was ordained by his home church and we were thrilled to be a part of that ordination. His new church was officially started and is doing fine. Now the big work of finding a piece of property and getting the funds to see a new building put up to reach the precious people of San Pedro Sula, Honduras. Yery still needs additional support. A little will go a long way in Honduras. Can you help?

Bro. Bruce Bennett, a dear friend of ours, had a desire to start a project to help build churches on the foreign field and help struggling missionaries get their much needed support raised. Together we came up with "Farmers of Faith" Project to do just that. We are praying that in months ahead this will really get off the ground and we will see, not just "a" church built, but several and not just "a" missionary helped, but many helped. Anyone can get involved, from a farmer to a 4-H member to a youth group. Exciting to see God working in this area of ministry.

The economy is definately affecting everybody and everything, but it is not affecting God! Hasn't phased Him one bit and we need to keep this in mind as things get a little tight. He is still on the throne and He is still saving the lost and building works that cannot be built by man. Amen, sure glad I am on the winning side.

We have some new areas of service opening to us and, very carefully and cautiously we are pursuaing them. We are still struggling with the "PJ" or registration in Paraguay. We are waiting on back ground checks on our team members to get this moving to completion. Sure has been a slow process and we are excited about what will happen as soon as we get this permission to work there. A suit case radio transmitter is already paid for and waiting for this registration to be completed. Everything is ready and we are patiently and prayerfully praying for this very important and crutial document to be finished. Help us pray for this! Souls are in the balance!

My schedule is getting full and my travel is also about to get busy is looks like. I have to make a trip to the Philippines later in the year and the way things are looking; some other difficult trips are in the making. God is really blessing the mission and I just pray for wisdom, strength and health to keep things moving in the direction God is leading us.

Thank you for you faithful support and prayers. We could not continue without your help!

Jerry & Christine
