March 5, 2014

Dear Pastor and Faithful friends,

The relief efforts continue in the Philippines from the Super Typhoon Yolanda and in all reality it will for quite some time. Its going to take a long time before the country is back to normal. Please, keep those who are affected in your prayers.

Much has happened in Diane and my life since December. The first week in December the doctor's office called and told Diane that she has or is in the early stages of cirrhosis of the liver. This condition is caused by a fatty liver. Her liver counts are much too high. Also, she has a tumor growing on her parathyroid, which must be removed. Normally this type of tumor is benign.

"Obama care" ended her insurance effective Dec. 31st, but her new insurance went into effect March 1st. Today she went back to the doctors for more blood work.

Naturally with all this we won't be able to move to the Philippines as planned. Please pray for the doctor's wisdom and the Lord's healing. We'll keep you updated on all this as we know more.

I am leaving for the Philippines this coming Tuesday for three weeks and will return the first week in April. Help me pray that during this time much will be accomplished for the Lord's glory.

Prayer request: Please pray for the container of Cebuano and Illongo bibles and tracts which are being shipped very soon. Pray, also that when it arrives in the Cebu port that the custom officials won't over charge us for this religious material. Religious material use to be free but in the last five years they have been charging us a large fee.

Thank you for all your prayers and continual faithful support.

Because of Him,

The Stikeleathers

Larry/Diane Stikeleather

Isa.58:8-12
